

Top 10 Reasons To Work with Heart of Adoptions, Inc.

1

Florida's Largest Adoption Agency

Since 2001, Heart of Adoptions has helped thousands of families grow. We are the largest adoption agency in Florida and consistently ranked among the top ten in the nation.

2

Your Funds Are Protected

All adoptive parent fees are held in trust until they are earned. That means your money is protected, even in the unlikely event of an agency bankruptcy or closure.

3

Low Upfront Costs

We never ask for full payment upfront. Instead, we require just \$3,000 to begin working on a matched case or \$5,000 if we are finding the match for you.

4

No Large Non-Refundable Fees

Beyond the initial payment, no additional agency fees are due unless and until you are placed with a baby.

5

No Conflict of Interest

Heart of Adoptions believes that collecting high fees on a disruption or crediting already paid fees to a future situation puts the agency and the prospective adoptive parents in a conflict-of-interest situation, as the agency is financially motivated to match with "new" money, and we do not engage in that practice.

6

Support After Disruption

Disruptions are heartbreaking. Although our disruption rate is far below the national average, we offer priority placement on our waiting list for families who experience one.

7

Reasonable, Transparent Fees

Our fees are in line with or below industry averages for matched adoptions. We are committed to full transparency so you always know what to expect.

8

Decades of Experience

Our social workers have more than 125 years of combined experience in adoption. You'll feel supported, informed, and confident at every step.

9

Financial Assistance Available

Through our nonprofit sister agency, Heart of Adoptions Alliance, and our national partnerships, we've helped adoptive families secure over \$1 million in grant funding.

10

Top Legal Representation

We are represented by Tate Healey Webster, the largest and most respected adoption law firm in Florida. With five board-certified adoption attorneys, your adoption is in the best possible hands.
